Chico Community Prevention
Coalition

Mission of CCPC

The mission of the Chico Community Prevention Coalition is to serve our community by working to prevent and reduce youth substance use. We seek to do this by engaging youth and families, promoting protective factors, minimizing the impact of risk factors, while increasing community education and collaboration.

STAFF INTRODUCTIONS

Marie Wallace- Project Coordinator
Mwallace@healthyrural.org

I'm Marie & the newest addition to the Healthy Rural California team as the Project Coordinator for Drug Free Communities and the Chico Community Prevention Coalition. I am a proud graduate of both Butte College and Chico State University, where I obtained my BA in Social Work in 2016. Having lived in Butte County for the past 15 years, I have had the privilege of working in this community providing mental health support and behavioral health services with at risk youth. Outside of my academic and professional pursuits, I have a profound love for dogs, hiking and any activities to soak in the sun.

Maya Teso- Project Coordinator Assistant
Mteso@healthyruralca.org

I'm Maya! It's a pleasure to meet you. I hold a degree from CSU Chico and have a profound passion for Public Health. During my 5-month internship at Healthy Rural California, I delved into understanding the various elements of health equity for rural communities. This experience not only broadened my perspective on Public Health but also intensified my passion to assist and support rural areas. I am proud to share that I am now a Project Assistant for the Chico Community Prevention Coalition at HRC, dedicated to preventing and reducing youth substance use in Butte County. It's an honor to contribute to our community in this capacity. Outside of my professional life, I find joy in staying active, whether it's at the gym or immersing myself in the great outdoors and connecting with nature.

Annalise Dagenbach-CSU Chico Public Health Intern
Adagenbach@healthyruralca.org

Hi everyone! My name is Annalise and from Rocklin California. I started attending Chico State in the Fall of 2020, and ever since had a drive to support the rural communities around me. I am a new Intern at Healthy Rural California assisting in the efforts of Chico Community Prevention Coalition. I am currently working to get my Bachelors in Public Health from California State University, Chico, which I will be completing in May this year. I am excited to be involved in this coalition with all of you to further expand my knowledge in Public Health and guide my passion for bettering the community. Beyond my professional life, I enjoy spending time with my cat, Simon and exploring new adventures around Chico with my close friends.

SPOTLIGHT: COALITION MEMBERS INTRODUCTIONS

- Please introduce yourself.
- Name of your organization.
- What is the purpose of your organization?
- How long have you been a part of the Chico Community Prevention Coalition?
