No	0

9. What topics would you like to learn more about at future events?

[More Details](#)

Nutrition	6
Stress Management	4
Preventative Care	1
Financial Well-being	3
Physical Activity	5

Overall, we received positive feedback!

Everyone, including our partners and the public, loved the Naloxone overdose training, face painting, networking, CCPC directory and the family-friendly environment of the Health Fair. The water fountain added a fun touch on a hot summer day.

Justin Moore and Public Health Intern Luis Lopez distributed 96 Naloxone kits to the community!

Community Health Fair Improvements/Concerns

- We received feedback about the layout of the fair, suggesting that assigning table placements before arrival would be helpful.
- There was a concern about the presence of the unhoused population during the event. However, since the CCPC event was a health fair, it was important for the public to witness the community's needs. Both groups were able to access valuable resources and information in Butte County.

Future Subcommittee Meetings

- Partners said subcommittee meetings should be scheduled when there is a specific goal (project) that must be focused on within a group. Perhaps it should be scheduled every 3 months or so...will be discussed in the coalition meetings.

CCPC Directory

- Thank you, Stonewall, for helping with the printing of the directories, so they can be distributed during the Community Health Fair!
- There is a need for more printing...Nathan (AEGIS) offered only in black and white, and a possibly BCPH Tobacco Education to print in color!

Spotlight Presenters!

- We are on the lookout for those interested in presenting at CCPC meetings to address what their organization is doing or current projects that are being worked on. We encourage you to participate just so everyone is aware of what everyone does and how we can all work together through prevention!

Thank you everyone that attended the subcommittee meeting, there are NO upcoming meetings until a set project is addressed...

Our CCPC meeting is this THURSDAY July 11, 2024, 3:30pm to 5pm, at the Plumas Bank, Chico, California. SEE YOU THERE! :)
